ScoreLogix™

Business Intelligence to Improve Operations and Maximize Net Collections
Currance's comprehensive web-based reporting platform, ScoreLogix™, offers Rev-Cycle performance visibility across your entire organization 24/7. Easily access over 375 system-generated reports, customized reporting, drill downs, and performance scorecards for instant insights to drive quick decision-making.

ScoreLogix™ capabilities go far beyond conventional measurements – it is your tool to quantify and manage Rev-Cycle Yield performance. Proprietary AI-powered business intelligence delivers visibility into Rev-Cycle Yield metrics that reveal operational strengths and weaknesses as well as progress toward net revenue goals.
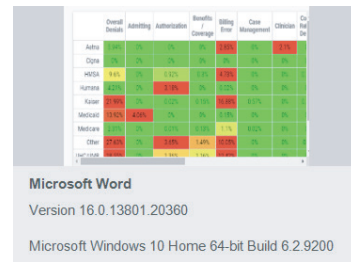

ScoreLogix™ delivers unparalleled Revenue Cycle transparency

Easy-to-understand formatting provides a precise measurement for each area of responsibility deployed across the entire revenue cycle. With ScoreLogix™, you gain a completely different perspective of revenue cycle operations. For example:

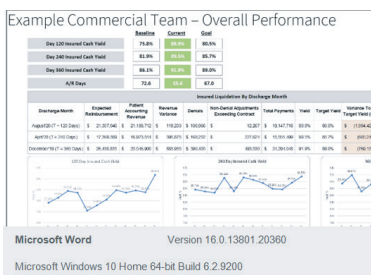

Overall Yield Performance

Understand efficiency and measure progress toward goals

Denials

Isolate areas of strength and weakness

Outstanding payments

Instantly calculate missing net revenue

Operational efficiency

See inside operations and measure performance

Close the gap between cash collections and expected payments

ScoreLogix™ helps your team continually focus on process improvement opportunities and sustain operational excellence throughout the reimbursement cycle.

ScoreLogix™ Features

- **Variance analytics and benchmarking**
- **Audit capabilities (drill down and root cause)**
- **Denial prevention**
- **Payer performance**
- **Claim cycle response times**

Currance RCY provides a point of view lacking in traditional revenue cycle reporting. It isolates revenue and productivity data and converts it into reliable KPIs that can be monitored and tracked over time, virtually eliminating the art of interpreting financial performance and providing reliable data for decision making.

An all-in-one business intelligence solution

ScoreLogix™ is your one-stop resource for actionable analytics, drill-down root cause isolation, and improvement tracking. Metrics can be broken out cleanly to give revenue cycle leaders at all levels and departments (including patient access, HIM, and patient financial services) the ability to see how their piece of the process is performing and measure progress toward goals.

4-6% sustained yield performance improvement on net revenue

Currance™
